

Internship at the University in Svecha (Przasnysz, Poland)

Undergraduates of the 2nd course of the specialty «6M011600 – Geography» of the Institute of Natural Science and Geography of Abai Kazakh National Pedagogical University, from November 14 to 24 have been trained in the branch of the Linguistic-Technical University in the city of Przasnysz.

In practice undergraduates, under the supervision of Sternal Elizabeth had the opportunity to improve the theoretical and practical knowledge gained at the university. During the practice they got acquainted with the Fund of the national library in Warsaw. , where they made a selection of necessary materials for a master`s thesis.

As future geographers, they conducted a comparative description of the geographical position and climate of Warsaw, the socio-economic situation and natural resources. During the ten days of the internship, many new impressions were received. Undergraduates who have undergone the practice were awarded certificates of the Linguistic-Technical University.
