5.	Life safety, its main provisions. Dangers, emergencies. Risk analysis,	5
	risk management. Security of the person. Destabilizing factors of our	
	time. Social dangers, protection from them: dangers in the spiritual	
	sphere, politics, protection from them: dangers in the economic sphere,	
	dangers in everyday life. The system of life safety bodies, and legal	
	regulation of their activities	
4.	Ecology and sustainable development	5
	Basic laws of functioning of living organisms, ecosystems of different	
	levels of organization, biosphere as a whole, their stability; interaction	
	of components of biosphere and ecological consequences of economic	
	activity of the person, especially in the conditions of intensification of	
	nature management; modern representations about concepts, strategies	
	and practical tasks of sustainable development in various countries and	
	RK; problems of ecology, environmental protection, sustainable	
	development	
CD 2 1.	CYCLE OF CORE DISCIPLINES(CD) Management in education and electronic documentation	5
1.		3
	Scientific and methodological foundations of pedagogical management. School management. Regularities and principles of management in school.	
	Functions and methods of pedagogical management. Information	
	technologies in management. Leadership style. Ethics and culture of	
	management. Marketing. Competitive ability of the organization of	
	education. Electronic logbook of classes, automatic distribution of classes,	
	completed documents and reports control of visits of teachers and	

UNDERGRADUATE LEVEL

	students, etc.	
2.	Inclusive education	5
-	The role of inclusive education in social and educational policy. Legal	-
	support, models, forms, types of inclusive education. Psychological	
	and pedagogical problems of education and upbringing of children with	
	disabilities in inclusive education. Psychological and pedagogical	
	technologies of work with children with disabilities and their families.	
	Interaction with teachers and psychologists in the organization of	
	inclusive education	
3.	Pedagogical measurements	5
	Modern means of evaluation of learning outcomes. The problem of	
	evaluation activity. Model of technology of criterion estimation. The	
	principles of assessment. Assessment stages and tools. Criteria table –	
	the subject heading. Formative assessment and summative (internal and	
	external) assessment. Moderation of summative evaluation results. Age	
	criteria for evaluation of educational results. Self-evaluation and	
	mutual evaluation with peers. Pedagogical objectives the portfolio.	
	Functions and composition of the portfolio.	
4	History of pedagogy, social pedagogy and self-cognition	5
	Theoretical and methodological foundations of the history of	
	pedagogy. Education, training and pedagogical thought in Kazakhstan	
	in the middle ages. School and pedagogical thought in Kazakhstan. The	
	subject and objectives of the history of social pedagogy. Socialization,	
	social education and socio-pedagogical ideas. The development of the	
	European socio-pedagogicheskih ideas. Implementation of the	
	educational program "self-Knowledge" in the Republic of Kazakhstan	
5	Social psychology	3
	Theoretical and applied problems, basic paradigms of social	
	psychology. Subject and methods of social psychology. Socio-	
	psychological diagnostics and the problem of forecasting social	
	behavior. Leadership in small groups. Subject and methods of social	
	psychology. Forms, functions, types and levels of communication.	
	Interpersonal interaction. Interpersonal conflict and ways to resolve it.	
	Small group, basic parameters and structure of the group.	
6	Statistical methods in social and pedagogical work	4
	Application of statistical methods using universal (Excel spreadsheets	
	and Statistica) and special programs ("Pedagogical statistics"). The	
	subject and objectives of statistics in socio-pedagogical research.	
	Statistical methods of research: types, purpose, pedagogical conditions	
	of application. Samples in socio-pedagogical research. Features of the	
	method and indicators of descriptive statistics. Graphical method as a	
	statistical method.	-
7	Family pedagogy	5
	Family pedagogy as a science. The formation and development of	
	family education. Family as a subject of socialization and education.	
	Regulatory framework of the family. Psychological and pedagogical	
	bases of family education. The content of family education.	
	Education in the family of children of different ages. Methods of	
	education in the family. Ways to improve the pedagogical culture of	
	parents. Methods of studying the family. Foreign experience of family education.	
8		5
0	Modern educational technologies	5
	The concept and essence of pedagogical technology. Classification of	
	pedagogical technologies. The personality of the child as an object and subject of technology training and education. Educational technologies	
	subject of technology training and education. Educational technologies	
	on the basis of humanization, democratization of pedagogical relations.	

Educational technologies based on activation and intensification of students' activities. Pedagogical technologies based on the effectiveness of the organization and communication and health-saving technologies. 9 Basics of volunteer work and pedagogical animation 5 Sesential characteristics of volunteer activity. The history of the volunteer movement. Legal framework of volunteer activity in the Republic of Kazakhstan. Volunteer movement abroad. Organization of volunteer activity is interests, methods and technology of organization. Social-protective and rehabilitation technologies and animation. 10 Social and pedagogical bases of prevention of suicidal behavior of children and adolescents. The definition of the concepts: suicide, suicidal and self-injurious behavior, parasuicide. Concepts of suicidal behavior of children and adolescents. The definition of the concepts: suicide, suicidal and self-injurious behavior, parasuicide, concepts of suicidal behavior of children and adolescents. Social and pedagogical support of children, adolescents and dynamics of suicidal behavior of children, adolescents. Social and pedagogical support of children, adolescents of socio-pedagogical monitoring. The concept and secone of monitoring in education as a scientific and practical problem. The purpose of monitoring in education. Monitoring the holstic development of the social pedagogue and teacher of self-congition. 12 Student teaching 4 14 Monitoring in the work of social pedagogue and teacher of self-funwledge, the should be dedagogical activity. The main requirements to the content of monitoring in episitual and moral education. Monitoring the holstic development of the biodos of diagnosis, means of practical pedagogical motive of the			
effectiveness of the organization and management of the educational process. Information and communication and health-saving technologies. 5 9 Basics of volunteer work and pedagogical animation 5 Essential characteristics of volunteer activity. The history of the volunteer movement. Legal framework of volunteer activity in the Republic of Kazakhstan. Volunteer movement abroad. Organization of volunteer Association. Models of service provision by volunteers. Opportunities and features of theatrical pedagogy in the leisure sphere. Club activity by interests, methods and technology of organization. Social-protective and rehabilitation technologies and animation. 5 10 Social and pedagogical bases of prevention of suicidal basic of suicidal behavior of children and adolescents. The definition of the concepts suicida suicidal and self-injurious behavior, parasuicide. Concepts of suicidal behavior. Determinants and dynamics of suicidal behavior of children and adolescents. Social and pedagogical support of children, adolescents and families in difficult life situations. 11 Monitoring in the work of social pedagogue and teacher of self-cognition 5 12 Student teaching. Monitoring in education. Monitoring in education. Monitoring in spiritual and moral education. Monitoring the theils development of the individual. 4 12 Student teaching 4 14 Monitoring the the aninal equication. Quantitative and qualitative methods of monitoring in the content of social and pedagogical activity. The main requirements to the content of monitoring in education.
