CATALOGUE OF ELECTIVE DISCIPLINES «7M014 – Teacher training with a subject specialization of general development (Visual art, artwork and design)»

Cycle of disciplines	Name of disciplines and their main sections	Laboriousness (ECTS)
CGED 1	THE CYCLE OF GENERAL EDUCATIONAL DISCIPLINES	35
	(CGED)	
1.	History and philosophy of science	4
	The subject studies the General patterns and trends of scientific	
	knowledge as a special activity for the production of scientific	
	knowledge, taken in their development and interpreted in a historically	
	changing socio-cultural context. This scientific knowledge exists in the	
	form of a huge number of scientific disciplines of natural Sciences and	
	Humanities. The history and philosophy of science is an independent	
	scientific discipline, which arose in response to the need to understand	
	the socio-cultural functions of science in the conditions of NTR	4
2.	Foreign language (professional)	4
	The discipline forms a foreign language (intercultural) component of	
	professionally oriented communicative competence, which allows further integration into a multilingual and multicultural professional	
	6 6 1	
	environment. The subject develops the abilities and qualities necessary for the formation of individual and creative approach to mastering new	
	knowledge; increases the General culture and education of	
	undergraduates, the culture of thinking, communication and speech,	
	forms a respectful attitude to the spiritual values of other countries and	
	peoples.	
3.	Pedagogy of higher education	4
	The discipline is one of the professional and pedagogical disciplines in	
	the cycle of disciplines of master's training and serves the purpose of	
	forming ideas about the essence of higher school pedagogy, its place	
	among other human Sciences, the laws of the pedagogical process in	
	the University. The subject forms General ideas about pedagogical	
	activity in the system of higher education; studies the leading trends of	
	the world educational space; allows to master the system of knowledge	
	about pedagogical methods, teaching technologies and pedagogical	
	skills; introduces the basics of pedagogical activity in high school,	
	means of interaction and management of the pedagogical process	
4	Management psychology	4
	The subject represents theoretical bases of psychology of management,	
	the main directions, methods and means of psychological and	
	pedagogical interaction, the main psychological and pedagogical technologies. The discipline has an integrated nature and prepares the	
	technologies. The discipline has an integrated nature and prepares the future master to a conscious understanding of the specifics of	
	management psychology; forms specific competencies necessary for	
	psychological activities. The knowledge and skills acquired during the	
	course of the course form the basis for the formation of readiness to	
	lead the team in the field of their professional activities, tolerantly	
	perceiving social, ethnic, confessional and cultural differences.	
OC 1.2.	OPTIONAL COMPONENT (OC)	15
1.	Intangible cultural heritage and artistic education	5
	Introduction to the discipline. Purpose, objectives, General	

]
	characteristics of the course. Basic concepts of the course. UNESCO	
	strategy in the field of intangible cultural heritage. Intangible cultural	
	heritage as educational material. The relationship of the intangible	
	cultural heritage and arts education. The role of art education in the	
	preservation and promotion of intangible cultural heritage. Traditional	
	crafts as an element of intangible cultural heritage.	
2.	Scientific and methodological foundations of modern art education	5
	Introduction to the discipline. Purpose, objectives, General	
	characteristics of the course. The essence and specificity of modern art	
	education. The place of art education in the General education system.	
	Problems and contradictions in the theory and practice of modern art	
	education. Philosophy and art. The principle of integrity in philosophy,	
	General scientific fields and its significance for art education.	
	Interrelation of objective and subjective in philosophy and art	
	education.
